****6th Grade students will work on Chromebook laptops and using Google Classroom technology in school. If you are able to provide a computer and an Internet connection for your child, they will be able to complete and submit their homework assignments via Google Classroom. Chromebooks are often cheaper than other types of laptops, and there are now several companies that make affordable Chromebooks. If your child does not have access to a computer at home, paper copies of homework assignments will be available.**

Your child's teacher may require additional supplies at a later date, and your child's supplies may need to be replenished during the school year. You may want to purchase extra supplies now while they are on sale. Please place your child's name on all supplies.
