

HHA Herald – Wednesday, May 12, 2021

Hi, this is Principal Hornbeck with your weekly HHA Herald. May is Asian American and Pacific Islander or AAPI Heritage Month. Over 23 million in number, Asian Americans and Pacific Islanders are the fastest-growing racial group in the United States. But AAPI individuals, families, communities, and businesses have been disproportionately impacted and harmed by the crises of the global pandemic and the legacy of anti-Asian racism and discrimination. During this month, HHA is making time to celebrate, commemorate, and reflect on AAPI Heritage Month by sharing their history and affirming our collective need to stand together. I encourage you to join me for a special online event put together by the Smithsonian Institute titled “We Are American and We Stand Together” this Saturday, May 15. You can register for this free event at <https://smithsonianapa.org/stand/>. Now it’s time for your puzzler. There are 2,350 books in a library. On Monday, 1,230 books are taken out. On Tuesday, 560 books are brought back. How many books are there now? Send your answer to me at principalhornbeck@hha47.org and I’ll let you know if you are correct. Have a great evening and we’ll talk again next week.
